Semester Planning

In order to be successful in this semester, student must possess a positive attitude provided with proper planning. Bookish knowledge is not everything. We are aware this planning will not break any college rules or laws that includes cheating and plagiarism.

Terms of the Contract

Methodology:

This involves the planning of each course such as proper time management (for example: languages like C# and .Net needs more time), difficulty level of each course, repeated revision through lectures or outside sources.

Assignment of Tasks:

- Record of all major events including due dates:
- Creating and planning semester schedule
- Planning daily tasks
- Gathering extra material other than text books
- Review and writing summary of daily classes
- Project evaluation and task time durations

Due date: The following contract expires on April 22, 2018.

Definition of Done:

This project is considered to be successfully done if: -

- a) At least score 50% in each course.
- b) Should have overall of above 60%.
- c) No cheating or plagiarism is involved.
- d) Good participation in class.
- e) Hard-work, team-work and leadership qualities along with some other qualities.

Progress Assessment:

The progress will be assessed weekly.

Conclusion:

The goal is not just to score well but to gain experience and perfect the languages as best as we can.
